hereinafter referred to as the "LESSOR", rents to the "LESSEE", hereinafter referred to as "Customer", the vehicle (including any vehicle replacement) in accordance with this Rental Agreement (hereinafter referred to as the "Agreement" or "Letter" of rental), which incorporates its terms and conditions, as well as the information and special conditions contained in the front of the Contract that the Customer has signed.

The rights and obligations contained in this Agreement govern the use of the vehicle, owned by the lessor by the Customer and are not by itself transferable to anyone.

The Customer acknowledges that he does not have any real rights over the rented vehicle and the accessories supplied and therefore cannot dispose of them

in any way, not even on a temporary basis; therefore any attempt to transfer or sub-rent the vehicle by anyone, on behalf of third parties, is null and void. The lessor grants the Customer the use of the vehicle only on the basis of the terms and conditions of this Agreement.

1. Rental Agreement. The contract or rental letter is an agreement between the vehicle supplier (Lessor), and any capable person, having the psychic, physical and aptitude requirements who signs the rental / contract letter, pursuant to art. 84 of the Highway Code (Customer).

The special conditions applicable to the rental are summarized in the rental contract or letter, including the characteristics of the rented vehicle, the times and places of the beginning and end, the services, including accessories, including the economic conditions applicable therein.

These general conditions are an integral part of the rental contract (or letter).

The changes made to the following general conditions will be preceded by a specific communication through the website www.mglrent.com (under construction)

2. Accessibility to rental. Both the Customer and any additional driver authorized to drive the vehicle, identified in the Rental Agreement, must comply with the identification and qualification formalities required by the Lessor, providing, in order to extract a copy, a valid identity document. Each driver of the Vehicle undertakes not to provide false information regarding his / her personal details, age, residence or domicile address, telephone number, e-mail address, as well as about the possession of all the legal requirements for driving license, aware of the fact that in the event of false declarations he may be prosecuted for what has been declared. Both the Customer and each authorized driver must be aged between 21 and 79 and be in possession of a valid driving license for the rented vehicle, issued for at least 24 months, which must be shown in order to extract a copy. For driving people under 25 years of age, access to the rental is allowed with the application of a daily supplement.

3. Vehicle. The Lessor provides vehicles covered by mandatory RCA insurance, in accordance with current Italian laws. The R.C.A. guarantees insurance coverage for civil liability towards third parties, animals and things (excluding those transported). The vehicles supplied are suitable for circulation, equipped with safety equipment (emergency stop triangle; tools; high visibility vest; spare wheel and / or repair kit) and in compliance with the registration and circulation tax. The signing of the Rental Agreement constitutes acceptance of the insurance conditions between the Lessor and the insurance company chosen by the same.

4. Methods of payment For the rental of the vehicle, payment is made in advance with the main credit cards, or by debit card - subject to the issuing of a specific authorization from the issuing institution - or by cash, or bank transfer. In case of payment by credit card in the name of a person other than the Customer, the additional signature of the cardholder will be required. In any case, the Lessor has the right to refuse the conclusion of the rental contract at its free and unquestionable discretion, without the obligation to give any reason to the Customer.

5. Collection and return of the Vehicle. The Lessor delivers the vehicle to the Customer complete with all the accessories required by law and all the documentation necessary for circulation. The vehicle is delivered to the Customer through the delivery report (checklist) upon signature on digital or paper support if the digital support is not usable and / or available.

Delivery takes place after checking the condition of the vehicle, with indication and any photographic documentation of any existing damage. The state of the vehicle and the completeness of the legal accessories are taken for granted by the signing of the report on the digital support referred to above and by the non-objection of the customer who, taking the vehicle, acknowledges that it is in an excellent state of maintenance and suitable for the agreed use and also that it is equipped with all the accessories and documents indicated. It is, however, without prejudice to the Customer's right to prove the existence of any hidden defects at the time of delivery and / or defects occurring during the rental that are not attributable to him. It is the Client's obligation to notify the lessor of the discovery of the aforementioned defects immediately. The Customer undertakes to return the Vehicle, together with its accessories and documents, free from things or goods, in compliance with the times and places indicated in the Rental Agreement, in the same conditions in which it was delivered, cleaning included, except for wear in proportion to the duration of the rental and the mileage traveled. The scheduled time for the return of the vehicle (check in), indicated in the contract is purely indicative. This means that, for any purpose, the time indicated in the return report will be valid. If the Lessor agrees one or more hours of tolerance with respect to the expected return time, these will already be calculated in the contract under "expected return".

Upon delivery, the Customer has the responsibility of verifying, jointly with the Lessor, the condition of the Vehicle, ascertaining and signing any discrepancies with respect to what is

indicated in the report at the time of delivery. In the event of failure to jointly verify the Customer expressly authorizes the Lessor from now on to charge the cost of any damage found on the Vehicle even after its return, in analogy to the provisions of the "Delayed charge Agreement" pursuant to art. "8", signed and delivered to the Lessor.

The types of penalties for non-compliance with the delivery times of the vehicle (check in) are linked to the choice of one of the rental rates provided by the Lessor and / or any intermediaries (Broker).

In case of failure to return the Vehicle within the times indicated in the Rental Agreement, according to the chosen rate, the Customer undertakes to pay the related penalty, without prejudice to greater damage, unless a written authorization has been issued by the Lessor to the continuation of the rental. In this case, the previously agreed rate valid at the time of the extension request will be due until the end of the authorized period; after this deadline, the above penalty will be applied again.

It is possible to choose, as an additional extra at the time of booking, the possibility of returning the vehicle to a place other than that of delivery (check out). This extra will be indicated in the rental agreement, together with the amount due.

In the other cases of failure to return the Vehicle to the place indicated in the Rental Agreement, but in any case at an Agency of the Lessor, if this option has not been chosen and indicated in the contract, the Lessor reserves the right to charge a penalty related to the any damage emerging as a result of the unavailability of the car at the Agency of expected return. The Vehicle must be returned during the opening hours of the Agency where it was taken over. The return of the vehicle is foreseen outside the opening hours of the Agency. In such cases, the rental will not be considered concluded when the keys are inserted into the Key Box, but will be considered concluded when the key is reopened, that is, until the Lessor returns to possession of the car. Until then, the Customer will be held responsible for any event involving the vehicle.

(by way of example and not exhaustively, for fines, damages, theft and / or total or partial fire) and the "Delayed charge Agreement" signed by the Customer will be applicable. In the event of a breakdown or a simple request by the Lessor, the vehicle must be returned by the Customer to any Agency of the Lessor who will replace it, subject to availability, without any charge for the Lessor and without prejudice to the latter's right, at its sole discretion, not to grant a replacement vehicle in the event of insolvency, theft, fire or serious accident of the rented vehicle. Any replacement will normally take place with a vehicle of the same category; in case of unavailability, a lower or higher category vehicle may be delivered to the Customer, applying the reductions and surcharges connected to the type of vehicle. The replacement of the vehicle is included in the rental fee, except in the case of breakdowns due to the Customer's own actions or to the Customer's willful misconduct or fault. If it is impossible to return the vehicle, the Lessor undertakes to reimburse the Customer for the sums he has spent for repairs due to vehicle breakdowns, provided that the same result from the invoice duly registered to the Lessor. For expenses whose amount exceeds € 50.00 (excluding VAT), the Customer must request prior authorization from the Lessor. The expenses will be reimbursed only if the failure was not caused by the Customer. In the event of failure to return the accompanying documents to the vehicle and / or the license plate, the Customer undertakes to pay, as a penalty, the sum of € 250.00, without prejudice to compensation for the relative expenses and further damage. In case of failure to return the keys of the vehicle, whatever the cause, and even if the vehicle has been returned, the customer is required to pay, as a penalty, the sum of € 250.00, subject to greater damage. In the event of failure to return or damage the standard and additional accessories of the vehicle, whatever the cause, the Customer is required to pay, as a penalty, a sum of € 250.00, subject to greater damage. The amounts of the penalties are VAT excluded. Any claim or complaint against the Lessor in relation to the rental made may be advanced by the Customer no later than the non-extendable term of 10 days from the date of return of the vehicle and / or closure of the rental agreement.

6. Costs and charges of the Customer. The Customer undertakes to pay the rental fee foreseen in the chosen rate and indicated in the rental agreement, the fee due for each optional / extra purchased, as well as the supplements provided for the hypothesis of signing one of the optional clauses of limitation of liability, referred to in article 9 below.

The total amount of the applied rate takes into account the duration of the rental, the selected extras and any other additional option chosen when booking or signing the contract, the vehicle class and other variable calculation factors (eg. Km and hours extras established in the Rental Agreement). The Customer undertakes to pay the lessor the cost of refueling for each missing liter and the related refueling service (equal to € 15.00 + VAT) if he returns the vehicle with a quantity of fuel lower than that received. If at the time of return of the vehicle, during the inspection carried out by the Lessor's representative in the presence of the Customer, damage is detected, the presence of which is acknowledged by the same with the signing of the return report, the Lessor will immediately provide an estimate of the repair costs that will be charged to the Customer. To limit the time for quantifying the damage and limiting the possible technical stop of the Vehicle, the quantification of the damage will be carried out through an analytical report by an expert technician appointed by the lessor. In some cases, and in particular for some types of light damage (indicated in the damage table as "minor" and "medium" (days it less than 1), the vehicle may not be repaired immediately, in these cases in quantifying the damage the technical stoppage of the vehicle will not be taken into account. If it is possible to quantify the amount of the damage at the rental station, it will be charged to the Customer's credit card (or through the different payment method used by them for the rental) already upon return of the Vehicle at the end of the rental. If the customer intends to contest the damage or its quantification and charge by refusing to sign the vehicle return report, the Lessor will note this circumstance and apply the Customer dispute procedure.

- if the damages are quantified by the lessor's agents or by auto repairers without the presence of the Customer (eg in the event of returning the vehicle after hours or hidden damage);

In such cases, the Lessor will appoint a third party (technical appraisal) who will assess the amount of the damage taking into account the prices of the original spare parts and the m.o. necessary from temporario ania.

- the amount of the consideration for the management of the claim file (€ 250.00 + VAT).

The Customer will have the right to contest the damages and their quantification within 5 days of sending the aforementioned communication (by certified e-mail or registered A / R). In the absence of a dispute within the aforementioned term, the Lessor reserves the right to debit the credit card provided by the Customer (or to withhold, in the case of a different payment method used for the rental) the amount of the damages and the consideration for the management of the claim file.

10. Limitations of economic responsibility that can be purchased by the Customer

The Customer can purchase some products that will allow him to reduce his economic responsibility in case of damage to the vehicle or theft, incurring a daily cost, indicated in the rental contract, which varies according to the category of the car and the days of rental. The Customer who pays the rental through intermediaries (brokers) is in any case jointly and severally obliged to the Lessor to pay any amount contractually due in the event of total or partial non-collectability of the security issued by the intermediary.

In order to protect the Lessor from the risk of theft or fraud, satellite devices (GPS and similar) capable of detecting the location of the vehicle itself and the speed or driving behavior may be installed on some vehicles, by tracking the its location. The Lessor reserves the right to communicate, if necessary, such data to judicial authorities, insurance companies, law firms and companies specialized in the prevention and management of thefts and accidents and to use or have the contents used for any action for its own protection.
